This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. For courses in Medical Assisting Help students develop the procedural, people, and professional skills they need to succeed in the medical assisting profession Pearson's Comprehensive Medical Assisting, Fourth Edition, offers a step-by-step, competency-based approach that covers virtually all facets of the medical assisting profession. Filled with 227 Procedures (32 of which are new), and a variety of workplace scenarios and critical-thinking exercises, the book helps students gain the procedural, people, and professional skills that are fundamental to being an effective Medical Assistant. The Fourth Edition was reconceived around the latest standards and guidelines published by CAAHEP (the Commission on Accreditation of Allied Health Education Programs) and ABHES (Accrediting Bureau of Health Education Schools). In this groundbreaking approach, the text's learning objectives were rewritten to directly conform to the standards, and all content was reorganized to flow from these objectives. Mapping documents demonstrate where standards for both of the accrediting bodies are met. To ensure a comprehensive, cohesive teaching and learning experience, the Fourth Edition's ancillaries also underwent a comprehensive update, and, in the case of the Student Workbook, a significant revision. The detailed, in-depth, follow-along study guide feature, found at the beginning of each Workbook chapter, directly reflects the correlating textbook chapter, providing important reinforcement of the information. The Workbook also features brand-new activities that directly relate to CAAHEP standards, particularly CAAHEP's Affective Competencies. The Instructor's Resource Manual details how each chapter's content conforms to the the specific curriculum standards of accrediting bodies, as well as the content required in various certification exam outlines. An updated Test Bank, PowerPoint Lecture Slides, and set of Lesson Plans round out the new edition's supplement package. Also available with MyLab Medical Assisting MyLab™ Medical Assisting is an online homework, tutorial, and assessment program designed to work with

this text to engage students and improve results. Within its structured environment, students pursue an adaptive test of their knowledge, practice what they've learned, and prepare for their certification exam. Content includes comprehensive Homework Questions, Critical-Thinking Quizzes, Professionalism Scenarios, and sample Certification Exams. This edition features an update of key Procedural Videos, as well as the inclusion of new video-based Decision-Making Cases, Dynamic Study Modules, and Interactive Procedural Checklists. Student Workbook for Pearson's Comprehensive Medical Assisting

"Medical assistants connect with people every hour of every day. They are the first line of medical care for many patients. To assist the physician with examining and treating patients, medical assistants must have a thorough knowledge of the structure and systems of the human body as well as a thorough knowledge of the procedures the physician performs and the procedures the medical assistant performs. At the same time, medical assistants must make every patient in a physician's office feel secure. They must comfort. They must listen. They must explain. They must demonstrate. Medical assistants help every patient feel like the only patient"--
