Doing Justice, Doing Gender

Doing Justice, Doing Gender: Women in Legal and Criminal Justice Occupations is a highly readable, sociologically grounded analysis of women working in traditionally male dominant justice occupations of law, policing, and corrections. This Second Edition represents not only a thorough update of research on women in these fields, but a careful reconsideration of changes in justice organizations and occupations and their impact on women's justice work roles over the past 40 years.

Doing Justice, Doing Gender

An insight into the long-standing struggle of women in criminal justice occupations to move beyond the barriers of gender segregation is provided in this book. The authors take a close look at the organization of justice occupations along gender lines and in doing so discuss issues such as the historical roles of women in the criminal justice system; the expansion of women's assignments and contributions in the past 20 years; the barriers that women in justice occupations have encountered at an interpersonal, organizational, occupational and societal level; the performance of women in more responsible and onerous positions, and their response to workplace barriers; and the effect of women on the criminal justice system, victims, offenders, co-workers, and the public.

Girls, Women, and Crime

A compilation of journal articles on the female offender written by leading researchers in the field of criminology and women's studies. Reveals the complex worlds females in the criminal justice system must often negotiate.

Handbook of Police Administration

As figureheads of the most visible segment of criminal justice, today's police administrators are forced to tackle challenges never faced by their predecessors. Heightened local and global threats, advanced technologies, and increased demands for procedural transparency require new levels of flexibility, innovative thinking, and the ability to foster and maintain relationships within the community. It is more crucial than ever to recruit and retain capable leaders to guide law enforcement agencies at this pivotal time in history. Covering areas such as leadership in policing, use of force, and understanding how the law shapes police practice, Handbook of Police Administration examines the key topics that must be considered by law enforcement professionals. Recognizing that police leaders need the skills and traits of a politician, accountant, attorney, field lieutenant, and futurist, the authors cover a variety of contemporary issues surrounding police administration and management. Divided into five thematic sections, it considers the legal aspects of overseeing a public sector organization, as well as how research, technology, and training can assist modern police leaders in performing their duties more effectively and efficiently. The book covers

problematic issues such as officers accepting gratuities, undercover work, and the time criteria required for promotional consideration. It concludes with a chapter comparing administrative issues in Australia with many of the subjects previously addressed with regard to U.S. protocol. Using a range of perspective, differing viewpoints, and controversial issues, Handbook of Police Administration provides a springboard to stimulate discussion at the cutting-edge of debate in the dynamic field of policing.

Women in Public and Private Law Enforcement

Publisher Description

Justice Connections

Former High Court judge of Australia, the Hon Michael Kirby, AC, CMG, in addressing the symposium that has evolved into this book, stressed the need for vigilance in the pursuit and protection of justice. Justice Connections is evidence of such vigilance. The book is a veritable smorgasbord of subjects – violence against women, Indigenous people, sentencing, genetic profiling, cultural exceptionalism, arbitral proceedings and environmental law. However, certain themes are constant. The notion of respect for the individual and their personal characteristics underpins the analyses in the book. Accordingly, a number of contributors examine the need to recognise and protect the potentially vulnerable in society. There is recognition too of the significance of the public interest and public participation in just policy and decision-making. Whilst the principle of the rule of law is a constant in civilised society another message of the book is that its form is very much an evolving beast. Furthermore, the book illustrates that justice is not synonymous with law, but more, as Professor Margaret Thornton concludes, 'a performative idea that is played out differently in different sites by different actors'.

At Work in the Iron Cage

When most people think of prisons, they imagine chaos, violence, and fundamentally, an atmosphere of overwhelming brute masculinity. But real prisons rarely fit the “Big House” stereotype of popular film and literature. One fifth of all correctional officers are women, and the rate at which women are imprisoned is growing faster than that of men. Yet, despite increasing numbers of women prisoners and officers, ideas about prison life and prison work are still dominated by an exaggerated image of men’s prisons where inmates supposedly struggle for physical dominance. In a rare comparative analysis of men’s and women’s prisons, Dana Britton identifies the factors that influence the gendering of the American workplace, a process that often leaves women in lower-paying jobs with less prestige and responsibility. In interviews with dozens of male and female officers in five prisons, Britton explains how gender shapes their day-to-day work experiences. Combining criminology, penology, and feminist theory, she offers a radical new argument for the persistence of gender inequality in prisons and other organizations. *At Work in the Iron Cage* demonstrates the importance of the prison as a site of gender relations as well as social control.

Women's Studies Quarterly: (32: 3-4)

From an interview with the wrongly-accused Betty Tyson to an analysis of “Prime Suspect 2,” this issue explores the increasing visibility of women--as offenders, victims, and criminal justice professionals--in the field of criminal justice studies. Topics include mandatory sentencing laws, the war on drugs, the motivations of Andrea Yates, and the then-recent HIV epidemic facing incarcerated women. Creative works and resources for teaching and learning more about women and crime are included.

State Crime, Women and Gender

The United Nations has called violence against women “the most pervasive, yet least recognized human rights abuse in the world” and there is a long-established history of the systematic victimization of women by the state during times of peace and conflict. This book contributes to the established literature on women, gender and crime and the growing research on state crime and extends the discussion of violence against women to include the role and extent of crime and violence perpetrated by the state. *State Crime, Women and Gender* examines state-perpetrated violence against women in all its various forms. Drawing on case studies from around the world, patterns of state-perpetrated violence are examined as it relates to women’s victimization, their role as perpetrators, resisters of state violence, as well as their engagement as professionals in the international criminal justice system. From the direct involvement of Condoleezza Rice in the United States-led war on terror, to the women of Egypt’s Arab Spring Uprising, to Afghani poetry as a means to resist state-sanctioned patriarchal control, case examples are used to highlight the pervasive and enduring problem of state-perpetrated violence against women. The exploration of topics that have not previously been addressed in the criminological literature, such as women as perpetrators of state violence and their role as willing consumers who reinforce and replicate the existing state-sanctioned patriarchal status quo, makes *State Crime, Women and Gender* a must-read for students and scholars engaged in the study of state crime, victimology and feminist criminology.

Handbook of Critical Criminology

This collection of essays offers students, faculty, policy makers and others an in-depth overview of the most up-to-date empirical, theoretical, and political contributions made by critical criminologists.

Ethics and Accountability in Criminal Justice

This is a book of research and policy aimed at raising ethical standards in criminal justice practice. Around the world, corruption continues to undermine the rule of law and the application of due process rights. Misconduct by criminal justice professionals challenges democratic authority and the equality and freedom of ordinary citizens. There is an urgent need for academics, advocates and policymakers to speak with one voice in articulating universal ethical standards and, most importantly, in prescribing systems and techniques that must be in place for criminal justice to be genuinely accountable and as free from misconduct as possible. The focus of the book is on the core components of the criminal justice system — police, courts and corrections — and the core groups within this system: sworn police officers; judges, prosecutors and defence lawyers; and custodial and community correctional officers. By using quality research and policy analysis of these core components Professor Prenzler formulates a basic checklist that can be used to assess the ethical quality and accountability of the criminal justice system in any jurisdiction.

The Complexities of Police Corruption

The Complexities of Police Corruption provides a comprehensive examination of the role of gender as it relates to police corruption, crime control, and policing as an institution. The book examines different forms of corruption, police culture towards misconduct, corruption risks, and why significantly fewer women are involved in police abuses.

Understanding Gender, Crime, and Justice

Why are there pronounced gender differences in rates of criminal victimization? Does gender influence the response of the criminal justice system and other parts of the community to offenders and to crime victims? What part does gender play in the etiology of illegal activities committed by both males and females? Understanding Gender, Crime, and Justice takes a contemporary look at such questions and considers areas that are often neglected in other books on gender, crime, and justice. In the last three decades, there has been an explosion of theory and related research relevant to gender, crime, and justice. Author Merry Morash, a well-known feminist scholar in the field of criminal justice, acquaints readers with key breakthroughs in criminological conceptualization and theories to explain the interplay between gender and both crime and justice. Understanding Gender, Crime, and Justice pays especial attention to race, ethnicity, and immigrant groups, and provides a unique comparative perspective. Key Features Includes first-person accounts from crime victims, workers in the justice system, male lawbreakers, and women engaged in prostitution to give insight into a diversity of experiences and standpoints Parallels the effects of gender and sexual orientation in laws, in patterns and causes of victimization, and in the responses of the justice system to both victims and offenders Integrates international examples to place U.S. experiences in a comparative perspective and to show gender inequities on a worldwide scale Provides numerous photos--unique for a text of this type--to portray people of all sorts in various regions of the world Includes Web site recommendations for further exploration of chapter topics Understanding Gender, Crime, and Justice is an ideal textbook for undergraduate and graduate courses that focus on women and criminal justice. The book is also a valuable asset for gender courses in sociology and for women's studies programs.

Prison Masculinities /edited by Don Sabo, Terry A. Kupers, and Willie London

This book explores the frightening ways our prisons mirror the worst aspects of society-wide gender relations. It is part of the growing research on men and masculinities. The collection is unusual in that it combines contributions from activists, academics, and prisoners. The opening section, which features an essay by Angela Davis, focuses on the historical roots of the prison system, cultural practices surrounding gender and punishment, and the current expansion of corrections into the "prison-industrial complex." The next section examines the dominant or subservient roles that men play in prison and the connections between this hierarchy and male violence. Another section looks at the spectrum of intimate relationships behind bars, from rape to friendship, and another at physical and mental health. The last section is about efforts to reform prisons and prison masculinities, including support groups for men. It features an essay about prospects for

post-release success in the community written by a man who, after doing time in Soledad and San Quentin, went on to get a doctorate in counseling. The contributions from prisoners include an essay on enforced celibacy by Mumia Abu-Jamal, as well as fiction and poetry on prison health policy, violence, and intimacy. The creative contributions were selected from the more than 200 submissions received from prisoners. Author note: Don Sabo, Professor of Social Sciences at D'Youville College in Buffalo, is author or editor of five books, most recently, with David Gordon, *Men's Health and Illness: Gender, Power, and the Body* and, with Michael Messner, *Sex, Violence, and Power in Sports: Rethinking Masculinity*. Sabo has appeared on *The Today Show*, *Oprah*, and *Donahue*. Terry A. Kupers, M.D., a psychiatrist, teaches at the Wright Institute in Berkeley. He is the author of four books, editor of a fifth. His latest books are *Prison Madness: The Mental Health Crisis Behind Bars and What We Must Do About It* and *Revisioning Men's Lives: Gender, Intimacy, and Power*. Kupers has served as an expert witness in more than a dozen cases on conditions of confinement and mental health services. Willie London, a published poet, is General Editor of the prison publication *Elite Expressions*. He is currently an inmate at Eastern Corrections. For nine years he was a prisoner at Attica.

Routledge International Handbook of Crime and Gender Studies

Criminological research has historically been based on the study of men, boys and crime. As a result, the criminal justice system's development of policies, programs, and treatment regimes was based on the male offender. It was not until the 1970s that some criminologists began to draw attention to the neglect of gender in the study of crime, but today, the study of gender and crime is burgeoning within criminology and includes a vast literature. The *Routledge International Handbook of Crime and Gender Studies* is a collection of original, cutting-edge, multidisciplinary essays which provide a thorough overview of the history and development of research on gender and crime, covering topics based around: theoretical and methodological approaches gender and victimization gender and offending gendered work in the criminal justice system future directions in gender and crime research. Alongside these essays are boxes which highlight particularly innovative ideas or controversial topics – such as cybercrime, restorative justice, campus crime, and media depictions. A second set of boxes features leading gender and crime researchers who reflect on what sparked their interest in the subject. This engaging and thoughtful collection will be invaluable for students and scholars of criminology, sociology, psychology, public health, social work, cultural studies, media studies, economics and political science.

The Case of Rose Bird

"This biography of Rose Elizabeth Bird is an overdue look at California's first female supreme court chief justice, against the backdrop of California's political and cultural climate in the 1970s and 1980s"--

The Routledge International Handbook of the Crimes of the Powerful

Across the world, most people are well aware of ordinary criminal harms to person and property. Often committed by the powerless and poor, these individualized crimes are catalogued in the statistics collected annually by the FBI and by similar agencies in other developed nations. In contrast, the more harmful and systemic forms of injury to person and property committed by powerful and wealthy individuals, groups, and national states are neither calculated by governmental agencies nor annually reported by the mass media. As a result, most citizens of the world are unaware of the routinized "crimes of the powerful"

The Criminal Justice System and Women

"The book looks at the underlying social, economic, racial, and cultural conditions of society and how they impact on women throughout society and the criminal justice system."--Publisher's description.

Behind the Walls

Despite falling crime rates, more rights for inmates, and better training for correctional officers, Canada's prisons are overflowing, and outbreaks of violence continue to grab headlines. Applying Goffman's frame theory and drawing on interviews with inmates and correctional officers in provincial and federal prisons, Michael Weinrath offers an unprecedented look at how inmates and officers perceive themselves, their relationships with others, and new developments and ongoing issues in prisons, including boundary violations by officers and the rise of prison gangs. Although progress has been made, prisons continue to be plagued by problems that prevent inmates from forging positive relationships among themselves and with correctional officers.

Policing Twentieth Century Ireland

The twentieth century was a time of rapid social change in Ireland: from colonial rule to independence, civil war and later the Troubles; from poverty to globalisation and the Celtic Tiger; and from the rise to the fall of the Catholic Church. Policing in Ireland has been shaped by all of these changes. This book critically evaluates the creation of the new police force, an Garda Síochána, in the 1920s and analyses how this institution was influenced by and responded to these substantial changes. Beginning with an overview of policing in pre-independence Ireland, this book chronologically charts the history of policing in Ireland. It presents data from oral history interviews with retired gardaí who served between the 1950s and 1990s, giving unique insight into the experience of policing Ireland, the first study of its kind in Ireland. Particular attention is paid to the difficulties of transition, the early encounters with the IRA, the policing of the Blueshirts, the world wars, gangs in Dublin and the growth of drugs and crime. Particularly noteworthy is the analysis of policing the Troubles and the immense difficulties that generated. This book is essential reading for those interested in policing or Irish history, but is equally important for those concerned with the legacy of colonialism and transition.

Legalized Families in the Era of Bordered Globalization

The first book to provide a socio-legal perspective on current interrelations between globalization, borders, families and the law.

Crime Control and Women

Miller's book makes clear the limitations of criminal justice policies which take no account of the effect on citizens who vary by gender, race and social class. Contributors show how desired social change can result from human and just practices.

The Police and Society

The most productive route to understanding the dynamic interrelationships of the police with society is to examine the recurring, central themes in policing. The articles in this anthology represent some of the best scholarship on compelling issues. Selected for both their complementary and competing natures, the articles serve as touchstones for one another—often challenging previous conceptions. Many selections question the methods by which information was acquired, the practices that evolved from that information, and the background assumptions behind the construction of practices. Some of the many issues and conflicts addressed in this collection include: What is the nature of the police role and function? Who benefits from police service? Who is harmed? How are public safety and social order secured while maintaining individual rights and freedoms? To what extent do our expectations about the police and society reflect our values and demands? Are the police a society unto themselves? Is policing at a critical crossroads? The editors assembled this volume with the goal of helping readers to identify underlying assumptions, to dissect how values influence inquiries, and to discover connections. A better understanding of the role of the police in

society provides a solid foundation for assessing the efficacy of future police/society relationships.

Rethinking Policing and Justice

It has become somewhat axiomatic to refer to the police as the 'gatekeepers' of the criminal justice system and thus as a mechanism for the provision of justice. And yet, when we conceptualize the police in this way, what is often taken for granted is the exact nature of that role and its larger social meaning. Indeed, we know that police deliver justice more efficiently to some and injustice to others. *Rethinking Policing and Justice* critically examines the role of policing (both state and non-state forms) in the provision of justice (and injustice). In essence, it presents work that highlights how different communities and groups have sought alternatives to policing, sometimes taking over the functions of policing. It also shows a variety of theoretical, methodology, and other approaches for the critical evaluation of law enforcement, highlighting different insights into alternative modes of policing, as we seek to understand and redraft the relationship between policing and justice. This book was originally published as a special issue of *Contemporary Justice Review*.

Criminal Justice Information

Reflecting the authors' belief that research and information gathering have become nonlinear, fluid processes, this book is designed so that criminal justice researchers can access it at any point in their work. The authors describe the evolution of criminal justice as a discipline, its links to related disciplines, the authorities in the field, the changes wrought by the Internet, and the types and sources of criminal justice information. They include Library of Congress subject headings for the topics and types of the printed reference works discussed. Annotation c. by Book News, Inc., Portland, OR.

Investigating Social Problems

"Given the complexity of the issues, the study of social problems requires, indeed demands, specialized focus by experts." -A. Javier Treviño *Welcome to a new way of Investigating Social Problems*. In this groundbreaking new text, general editor A. Javier Treviño, working with a panel of experts, thoroughly examines all aspects of social problems, providing a contemporary and authoritative introduction to the field. Each chapter is written by a specialist on that particular topic. This unique, contributed format ensures that the research and examples provided are the most current and relevant in the field. The chapters carefully follow a model framework to ensure consistency across the entire text and provide continuity for the reader. The text is framed around three major themes: intersectionality (the interplay of race, ethnicity, class, and gender), the global scope of many problems, and how researchers take an evidence-based approach to studying problems.

Women and the Criminal Justice System

This text examines the various roles of women in the criminal justice system against a social context in which women are oppressed. The text examines the following three roles of women in criminal justice: *Women as victims of crimes *Women as criminals convicted and sentenced for crimes *Women as workers in various agencies in the criminal justice system This text emphasizes content on gender and ethnic diversity and on the strengths of oppressed people, especially women of color. A wide range of issues are covered, including: the rate of early childhood sexual abuse, victimization in female inmates, priest abuse of girls, female inmate rape by male prison guard, and obstacles for women lawyers achieving partnerships in their firms. The authors provide a wealth of recent data drawn from both domestic and international human rights sources, as well as from personal interviews. The final portion of the text describes women's setbacks in entering the traditionally male dominated fields of policing, the law, and corrections. If people are given half a chance, they can draw on their own resources to heal from the past and build for the future. This empowerment approach is already prominent in the social work field and widely used in victim treatment programs for working with female offenders.

Women Judges in Contemporary China

This study provides an up-to-date empirical account of Chinese female judges within the context of the Chinese legal system and wider society, revealing a deeper understanding of women in contemporary China. Shen explores the gendered nature of judging in post-Mao China by examining: who female judges are, what they do, and their position in relation to their profession. She goes on to argue for true representation of women in the judiciary, including their contributions in judging, and the importance of judicial diversity. The book examines the place held by female judges at home and women's place in society as a whole, and investigates gender equality, women's agencies, emancipation, and empowerment in the contemporary China. Based on data resulting from original research, this book provides a much-needed contribution to contemporary women's studies. Addressing a broad range of issues surrounding gender and justice in the Chinese judicial system, this engaging study will be of special interest to scholars and activists involved with judicial diversity, gender politics, and gender equality.

Theorizing Criminal Justice

Presents essays that cover a range of topics of interest to those who study women, crime, and criminal justice. It includes a variety of national and global perspectives.

The Future of Fact

Rethinking Gender, Crime, and Justice

"Through the compelling stories of Black women who have been affected by racism, persistent poverty, and class inequality, Beth Richie shows that Black women in marginalized communities are uniquely at risk of battering, rape, sexual harassment, stalking and incest, and the extent of that violence is minimized--at best--and frequently ignored. Arrested Justice brings issues of sexuality, class, age, and criminalization into focus alongside questions of public policy and gender violence, resulting in a compelling critique, a passionate re-framing of stories, and a call to action for change." -- From back of book.

The Invisible Woman

Taking a sociological approach, this reader addresses the diverse array of crimes against women and offers a compilation of research on this often minimized topic. Rich in conceptualization and theory, these readings tackle topics from the victim's perspective and include media images, legal analysis, and official statistics. Material is presented within historical, legal, and social contexts so readers get a comprehensive understanding of female victimization. Throughout the collection, the causes of female victimization are examined, the responses from the criminal justice system are considered and the consequences for society are revealed.
